# Expect more from your VMS

Simplifying locum tenens management with direct access to the largest marketplace of physician and advanced practice job seekers and trusted agencies.

Locum tenens staffing can be a complex and time-consuming process. LotusOne is a scalable VMS platform designed to simplify locum tenens management, delivering unmatched functionality and adaptability.

As the nation's largest healthcare staffing platform, LotusOne offers an enterprise-wide solution to managing contingent labor, including locum tenens.

- ⊘ Enter job requisitions
- ⊘ Oversee name clearing process
- ⊘ View candidate presentations
- ⊘ Track credentialing documents
- ⊘ Approve timecards and expenses
- ⊘ Simplify the offer process
- ⊘ Consolidate billing and invoices
- ⊘ Manage open shift needs
- ⊘ Analyze program performance with real-time reporting
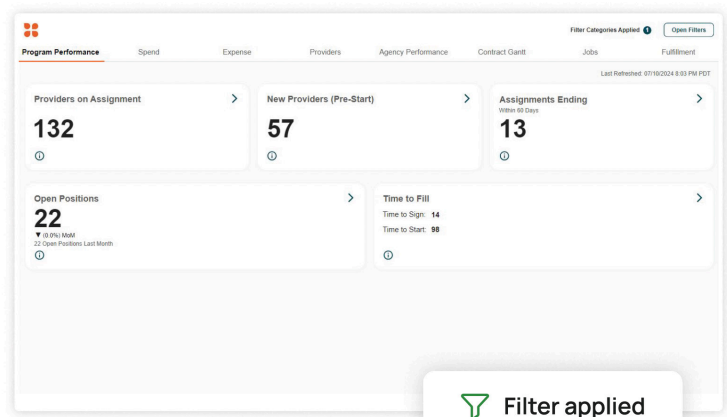

## Keep track of everything

All your information and documentation are stored on one platform with a dedicated account manager handling job requisitions, active contracts, credentialing and other daily activities.
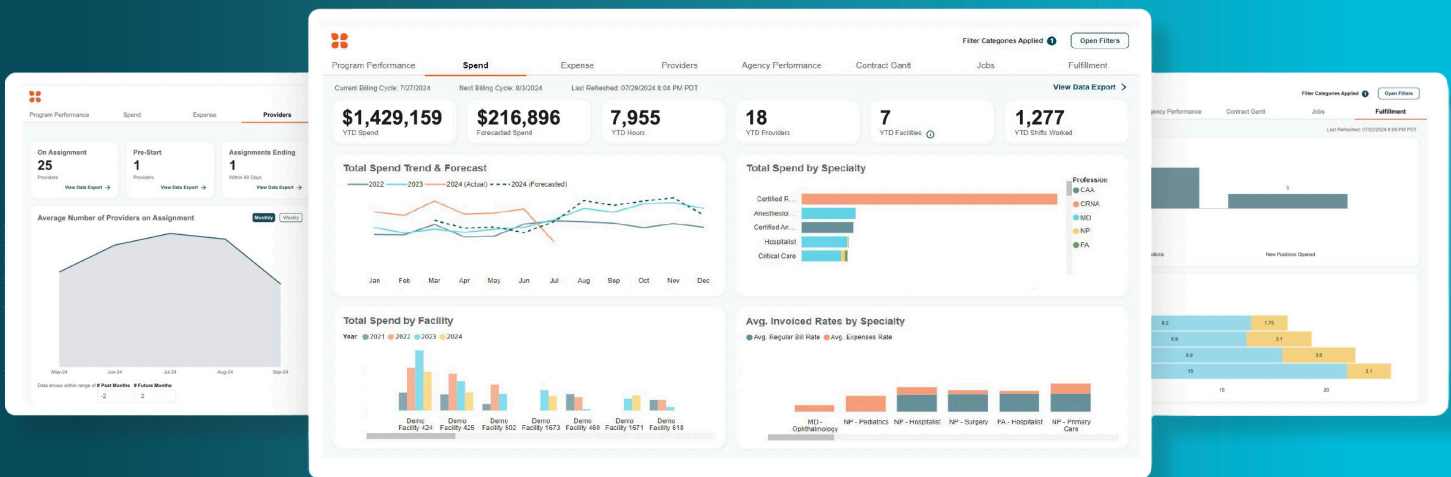

## Increase transparency

Take control of your locum tenens program with unparalleled transparency into spend, utilization and more — empowering you to stay fully informed every step of the way.

## Automate manual tasks

Eliminate duplicate data entry and seamlessly transfer information through integrations with popular ATS, HR and financial systems.

LotusOne provides cost and fulfillment optimization tools to improve your overall program. You can choose to manage the tools yourself or seek assistance from our dedicated account management team. We're putting the power of how you use our platform in your team's hands.

## Job requisition

Use templates to quickly enter requisitions with consistency. Incorporate multi-level approvals to align with your workflow.

## Forecasting report

Visualize the long-range schedule of physicians and advanced practitioners with a Gantt chart to stay ahead of gaps in coverage and proactively assign or extend resources. Receive forecasted market trends and activity reports from our account management team to improve program excellence.

## Reporting and analytics

Gain real-time insights with LotusOne's dashboards for program performance, spend, expenses, agency performance, fulfillment and more.

## Timecards

Integrate easy-to-manage timesheets with your existing systems to make approvals simple.

## Consolidated billing

Easily approve and dispute invoices to gain full visibility into spend.

## Name clearance

Integrate your candidate library with existing agency ownership and easily access presentation details for improved efficiency.

## Credentialing and licensing management

Centralize locum tenens credentialing and licensing documentation in one online repository.

## Float pool management

Easily active your employed talent before releasing shifts to your direct locums, prioritizing the most cost-effective resource.

## Custom development and integration

Automate processes with custom solutions and integrations at no additional cost.
