

Fill Permanent Roles Faster with CoreHire

Fill permanent positions with high-quality candidates perfectly suited to your facility's needs with CoreHire.

We've simplified the hiring process so you can focus on connecting with top talent:

- 1 Post jobs to Aya's talent marketplace, the highest-trafficked healthcare job site on the internet.
- 2 Our personalized algorithm pairs your job openings with qualified candidates, while our advanced digital marketing promotes your listings across multiple channels to drive targeted traffic.
- 3 Easily candidate submissions and interview availability in LotusOne.

We know that today's traveler could be tomorrow's permanent employee. That's why our targeted advertising and algorithm-driven personalized touchpoints capture both passive and active job seekers, connecting you to an even broader pool of highly qualified candidates.

CoreHire includes:

Expanded Reach

- Jobs are marketed across the web, social, email and more to capture active and passive candidates.
- Detailed job postings and targeted campaigns increase candidate engagement.

Advanced Candidate Matching

- Personalized touchpoints and AI-powered recommendations match clinicians with the right jobs.

Efficient Recruitment Workflows

- Easy implementation to get started quickly.
- Unlimited job postings allow you to target all clinical, nursing, allied and non-clinical positions.
- One-click apply feature streamlines the application process.
